

### Individual Summary Report

My responsibility is to make sure the style is good and make it easy for people to use The website. Not only that, but It is also my responsibility to make sure that the design and the size of the image are taken care of. It's a way to ensure it is user-friendly and more informative about the Deaf Culture History. The idea of this website is to expose the history of the Deaf Culture. It's important that when you are learning ASL, it reflects the history of Deaf Culture. In many ways, ASL is a way the defined the Deaf Culture and its history.

The way how I operate within my team was pushing others to work together and try to complete it on time. I also do my part outside of class by finishing research and putting together the content. This way, I can be ready for the next time we meet as a group.

In my opinion, I think we did really well. We have the chemistry but it would be nice not to do it last minute. The nice part of our project is the comment form. It really stands out because it's a way to engage others as part of the project. Our team went above and beyond by being able to work together and help one another. Even though we have really good chemistry, we could manage our time better.

Yenry did a great job making sure everything is on task. He even came to one unofficial meeting. Alfred is very determined. He make sure that he was able to articulate what was in there and what was not. Adam was also very resourceful. He was able to compete and show some new tricks. One thing That I would wish everyone would do is get their content ready before the final day.
